

 **BLM GROUP USA Corporation**

NEW FACTORY **EXPANDS** INNOVATION CAPABILITY

On September 24, 2007 **BLM GROUP USA** opened for full operation its new headquarters, equipment demonstration, and customer training facility in Wixom, Michigan.

Since opening for operation in 2001, **BLM GROUP USA** has experienced significant growth in its territory. This success is attributed to the growing recognition of the high performance and reliability of BLM and ADIGE tube fabrication equipment, the company emphasis on responsive customer service, and an experienced service, sales and senior management team.

BLM GROUP USA's new 32,000 sf facility represents an important investment in its commitment to customer support in North America.
