# TUBE-INSPECTOR

MEASURING INSTRUMENT TO CHECK AND CERTIFY THE ENTIRE PRODUCTION

- use of the measuring instrument directly on the shop floor without needing a specific metrological room;
- **reporting** of cpk measurement for each batch with the possibility of including or excluding rejected pieces from the calculation;
- **immediate detection** of any measurement deviation so that action can be taken in advance when programming the piece, thereby **avoiding any rejects during production**;
- 100% **production control** when installed in an automatic work centre;
- measurement of deformed tubes features with profile comparison option

Our staff is at your disposal for any clarification, information and/or practical demonstration. Contact BLM tel. +39 031 7070200 - email: [export@blm.it](mailto:export@blm.it) - [www.blmgroup.com](http://www.blmgroup.com)
