# Lasertube LT 722D

THE NEW GENERATION OF LASER TUBE CUTTING TECHNOLOGY

**LT 722D** is the eighth generation of Lasertube cutting systems made by ADIGE. A new world standard for laser tube fabrication. Higher productivity is one of the main features of **LT722D** with an increased rate up to 30% compared to the previous generation. The more complex is the parts to cut the higher the benefit. Higher productivity together with flexibility and easy to use feature this model and make it suitable to process efficiently both low and high volume batches.

Our staff is at your disposal for any clarification, information and/or practical demonstration. Contact BLM tel. +39 031 7070200 - email: [export@blm.it](mailto:export@blm.it) - [www.blmgroup.com](http://www.blmgroup.com)
